#### STATEMENT OF REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The most pertinent prior art known to the Examiner is listed on the attached forms PTO-892 and 1449. As shown by Benz et al., Lehman et al. and newly found prior arts Crotti and Hohmann et al., the close prior arts of record, the process of dyeing synthetic material with reactive dyes followed by an after-treatment are well-known. However, none of the prior art of record including Benz et al., Lehman et al., Crotti and Hohmann et al. provides sufficient suggestion or motivation to a dyeing process that includes (a) the specific synthetic polyamide fiber, (b) the specific reactive dye and (c) an after-treatment of a reducing agent and that excludes (d) a polycondensable and polymerisable fixing agent and (e) specific polyester and polyamide blend fibres as required in the present claims. Accordingly, the claimed invention, as a whole, would not have been obvious to one of ordinary skill in the fibre dyeing art. None of the prior art of record teaches, discloses or suggests a dyeing process that employs the specific dye

in the dyeing of a synthetic polyamide fibers followed by a reducing agent after-treatment step in the manner as those recited the present claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
